Fair Launch Protocol

Build on  SOLANA

Current State & Issues of the Memecoin Ecosystem

👁️ Rug & Pull Problem

99% of Memecoins go to zero within 24 hours, with extremely short lifecycles.

⊗ Intense PVP Competition

The current market's classic Pump.fun Bonding Curve model exacerbates opposition and competition among users. Early adopters profit significantly from the "first-come, first-served" advantage, while later users often end up as bag holders, suffering losses.

Our Solution

Fair launch

The same participation price

Fairer

Launch on Meteora

Opening MC / Fair Launch MC

200% ROI

Activate M3M3

Stake & Earn Reward

PPP

Multiple Launch Mode

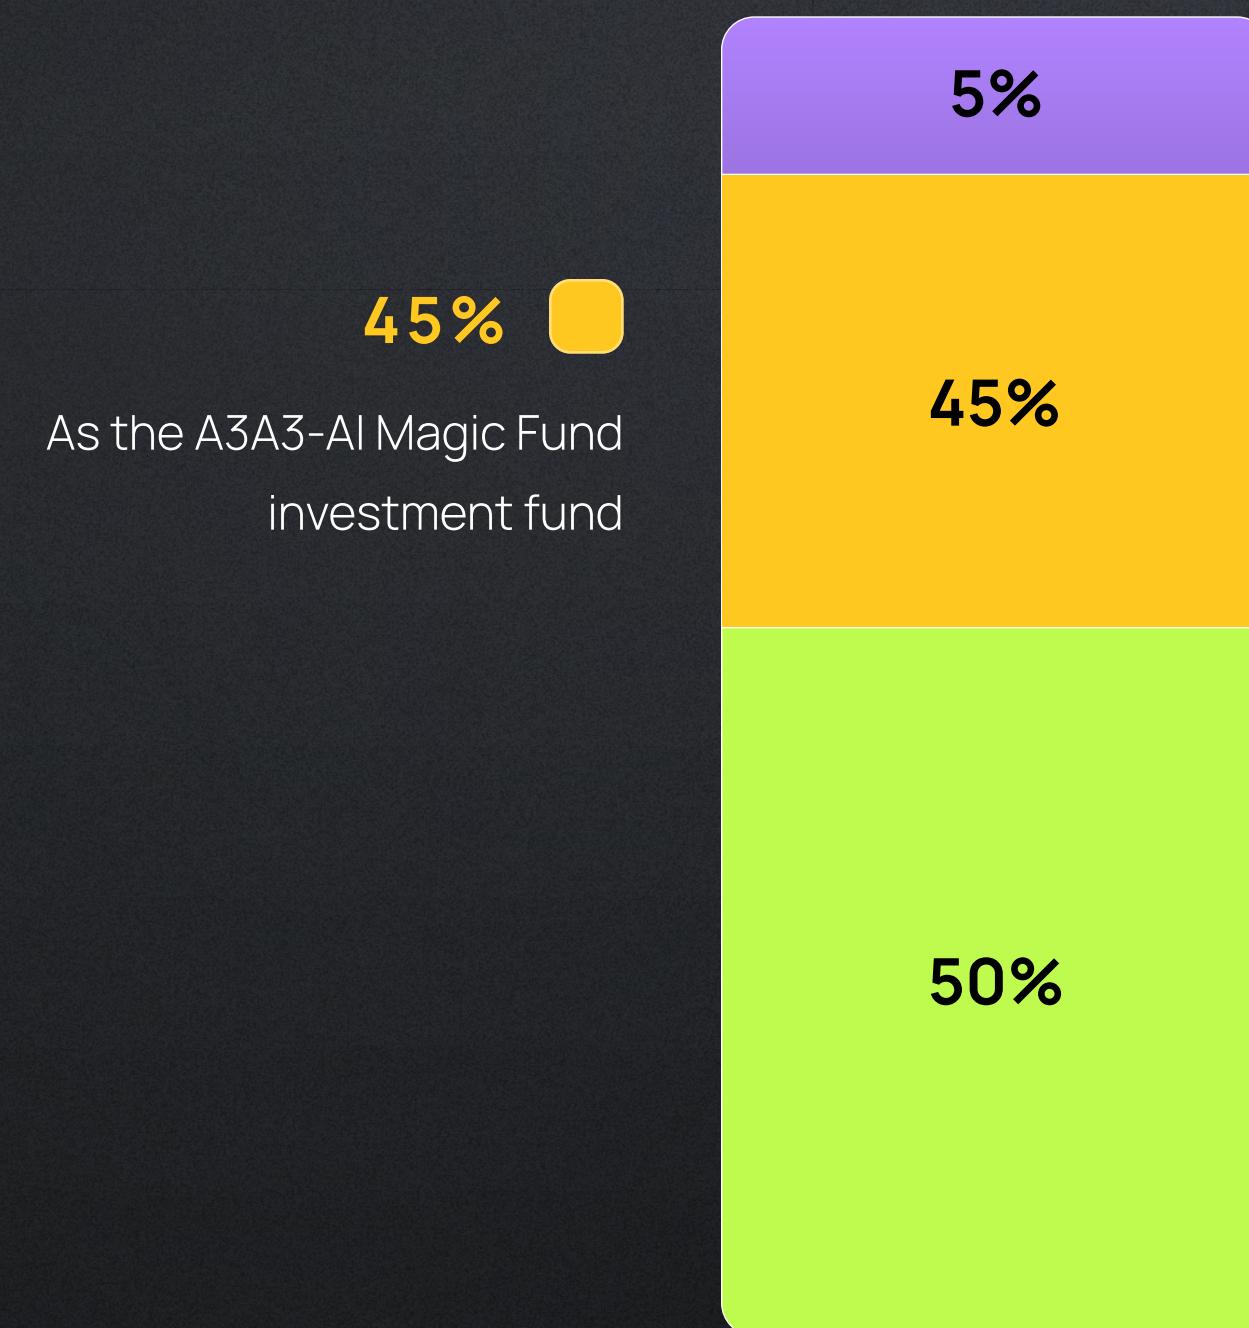

Launch on Game.com

Developers can customize transaction fees for buying and selling, as well as token prices (with a minimum of **0.000042069 U**).

The total supply of tokens is fixed at 1 billion, with **80%** of the tokens being distributed to users through Fair Launch by default.

Slot machine mode (optional): Users can earn up to **200%** Lucky Bonus rewards when buying tokens. **85%** of the raised funds will be distributed to users through the slot machine reward model.

Fundraising allocation rules

5%

As platform revenue, used for ecosystem development and platform growth.

45%

As the A3A3-AI Magic Fund investment fund

50%

50% of the SOL or **\$G** raised in the Fair Launch, along with the remaining **20%** of the tokens, will be injected into the liquidity pool and deployed to the Meteora liquidity protocol.

Multiple Launch Mode

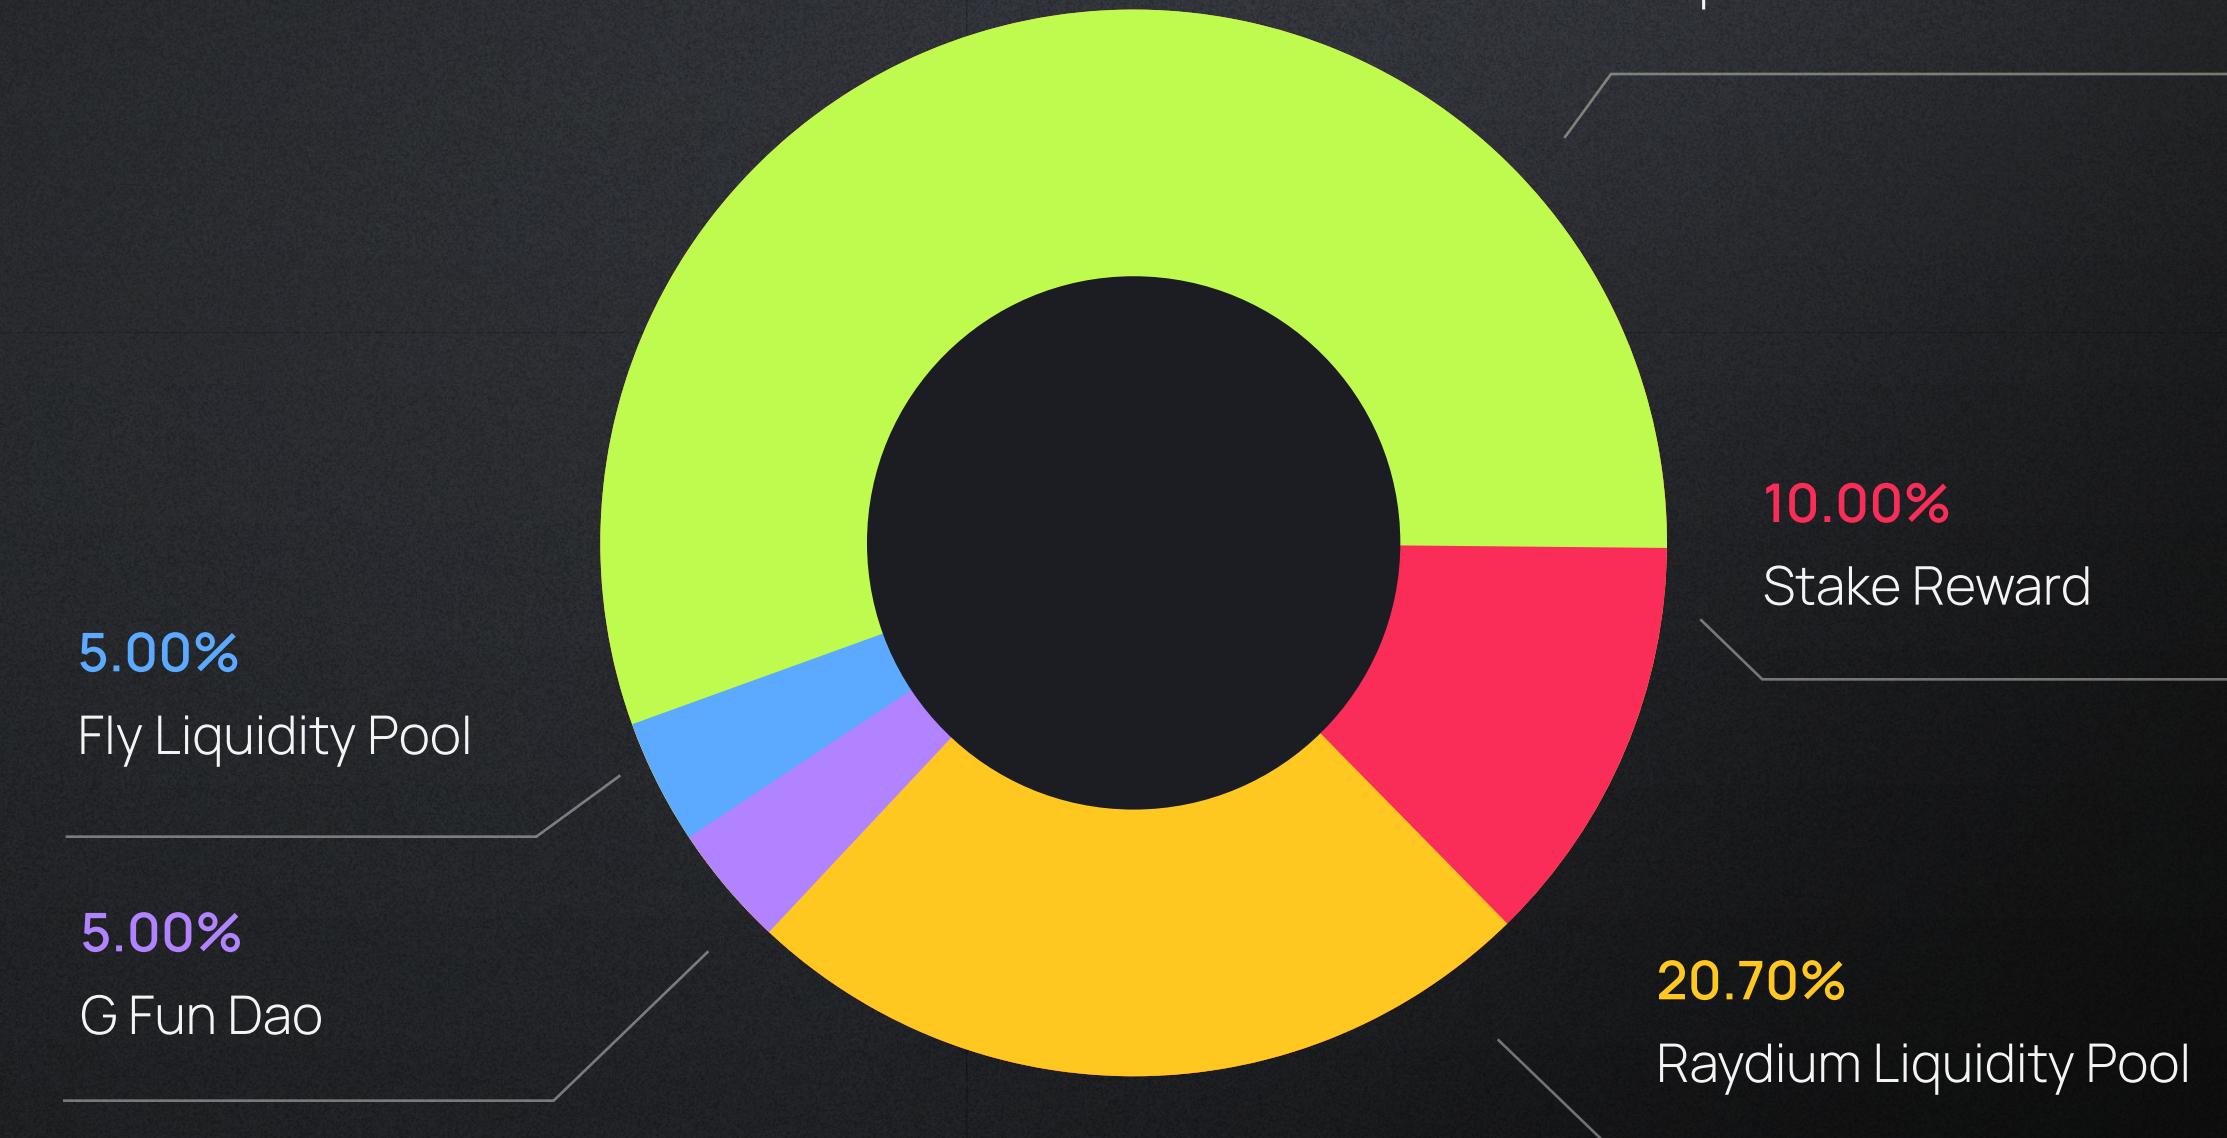

Launch on Pump.fun

The default fundraising amount is **100 SOL**.

After the Fair Launch is completed, the token will be automatically created on Pump.fun, and **86.00 SOL** will be automatically bought via the system wallet and launched on Raydium to enable Swap trading.

Token allocation rules

Special Launch Mode

Top 1% Alpha

<https://top.game.com>

Top 1% Alpha is a high-quality Memecoin launchpad powered by Game.com

We collaborate with Memecoin experts to carefully select high-quality Memecoin teams that foster positive community atmosphere, demonstrate stable growth, and align with current industry trends

**Supporting Policies**

Traffic Support

Prior to the launch of the Alpha project, gain full-platform exposure in Game.com and its related communities one week before

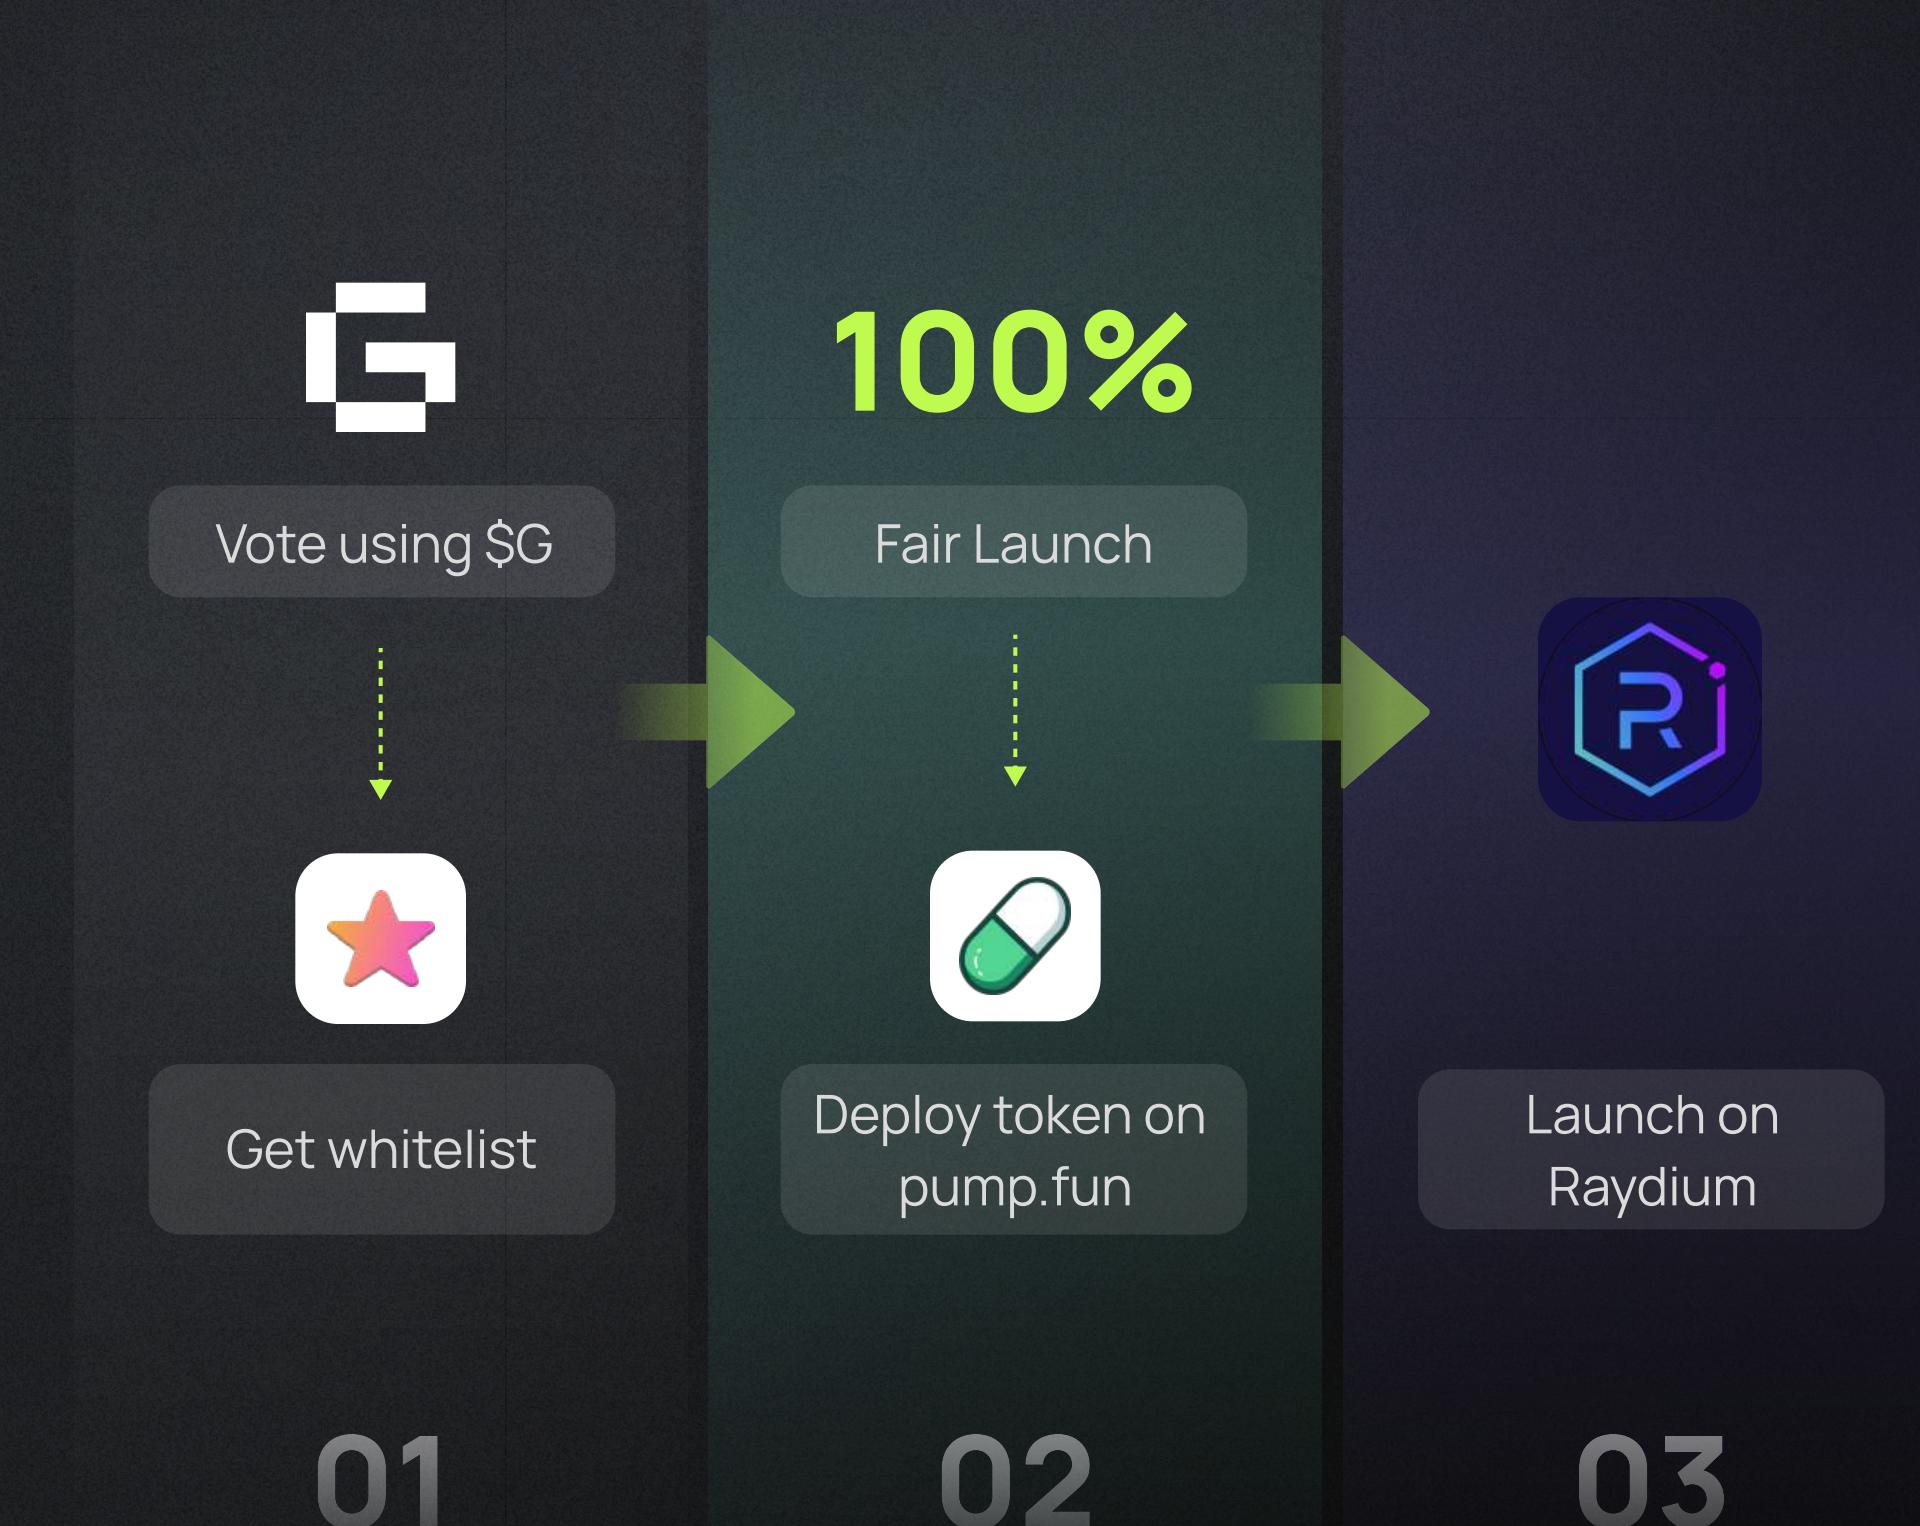

Investment Support

Selected projects will receive investment support from A3A3-AI Magic Fund

Deep incubation

Outstanding projects will benefit from additional activities like trading competitions to promote their development

How it works ?

Advantages & Innovation

Features	Pump.fun	Game.com
Flexibility	× Only bonding curve as issuance model	✓ Highly flexible: Innovative Fair Launch mechanism, also supporting the basic Pump.fun model
Community-driven	× Relies on competition between users with less innovative interaction experience	✓ Community-driven: Through slot machine gameplay and configurable parameters, it enhances user participation and interaction experience
Reward Model	× No systematic reward mechanism, resulting in 99% of Memecoins having a short lifecycle	✓ M3M3 reward model: Incentivizes staking and holding tokens, reduces sell pressure, and drives long-term growth of the ecosystem
Quoted Tokens	× Only SOL as quoted token	✓ Additional support for \$G as a quoted token, launching the \$G flywheel model

Vision

Fairer → Sustainable → PPP

We aim to create a fairer, more engaging, and sustainable memecoin ecosystem for users, transforming the traditional Memecoin issuance mechanism from the Bonding Curve's PVP model into a new paradigm of PPP

..... Meme is a game
